OVERVIEW OF AVAILABLE MODULES, INTEGRATIONS, AND AGENCY TOOLS

Available Modules

e-Crash

- Web-access device; internet required.

e-Citation/Warning

- Web-access device and 8.5 × 11 inch printer required.

e-TOW

- Web-access device and 8.5 × 11 inch printer required.

Integrations & Data Exchange

RMS (Records Management System)

Webservices are available for the TITAN e-Crash, e-Citation, and e-TOW data to pull back into your local contracted (RMS) NOTE: If we do not already have your vendor as a vetted RMS connection, the schematics can be shared with them with your granted permission.

****TITAN services are no charge, but your vendor may have fees that apply to your connection** **Class B misdemeanors and higher, AKA "Arrestable Offenses", are not transmittable electronically by restrictions of Tn Statutory requirements. Such offenses are printed from the TITAN module and delivered by hand to the court clerk. ****

CDR (Court Disposition Reporting)

Webservices are available for the TITAN e-Citation data to pull into your local contracted court software.

NOTE: We already have an active vetted connection with MOST County General Sessions and SOME Juvenile Courts. If we do not already have your vendor as a vetted CDR connection, the schematics can be shared with them with your granted permission.

Agency Administrative Tools

- Request reports using ad-hoc searches and receive overnight Excel extracts based on agency usage.
- Use module-specific search tools for each service your agency utilizes.
- Local Admin role supports section/shift changes, supervisor/reviewer updates, and user account adjustments.

Implementation Notes

- TITAN staff can add specific court offenses and city ordinances to your General Sessions/Municipal offense list.
- TITAN staff can add court-specific language (~50 characters) and a single QR code per court to print on each citation.
